

# TREASURES ON THE DEEP

## 11. DAVID LIVINGSTONE - Lake Nyassa Discovered

1. David L\_\_\_\_\_ is still looking for Lake N\_\_\_\_\_.
2. Three times he sailed up the Sh\_\_\_\_\_ River. The 1st time they were stopped by wild foaming cataracts. The 2nd time they travelled on foot, and a native man led them to a lake but it was not Lake Nyassa. The 3rd time, they sailed the *Ma R*\_\_\_\_\_ up to the cataracts and then travelled on foot.
3. The steamer gave them a lot of trouble. The b\_\_\_\_\_ burned so much w\_\_\_\_\_ that it took them a whole day to collect enough wood for a days journey.
4. The ship also began to leak, and m\_\_\_\_\_ laid their e\_\_\_\_\_ in the stagnant

A cataract

water. No-one knew that mosquitoes caused malaria, but Livingstone was one of the first to see the connection, and he was not happy with the conditions on the s\_\_\_\_\_.

5. He met many people on the j\_\_\_\_\_ and was able to pr\_\_\_\_\_ the gospel to all he met. He was opening the way for other m\_\_\_\_\_ to follow.

6. He walked for 3 weeks after leaving the ship. Eventually he discovered Lake N\_\_\_\_\_ (*now Lake Malawi*).

7. Now God gave him a new vision. If a ship could be built, and taken in pieces to the lake and then re-assembled, it could sail all around the huge lake and take the gospel message to many thousands of people. Livingstone decided he would pay for the building of such a ship himself.
