

What a Day!

What's gone wrong? Things aren't what they used to be.

We are generally better off financially...we have a better diet, better housing, more opportunities to travel and much more than those who lived before us.

Generally speaking however, we are less happy, less contented and less sure of what life is all about.

We are conscious that something has gone drastically wrong. Terrible crimes are committed...it is dangerous to be on the streets at night...discipline has broken down and respect has gone.

People don't pull together as they used to...trust has gone...there is litter, violence, drug-abuse on our streets, and an aching void within many a heart.

What a God!

When people honoured God in Old Hill, they could leave their doors open at night, trust each other, and be sure that their children were safe on the streets. People were not so well off materially, but they were better off spiritually. They knew their God, the God who is righteous and holy in all His ways, and the God who gave His only begotten Son, to save sinners from their sins. They knew, and believed that whatever happened to them in life, all things worked together for their ultimate good.

Their lives had meaning and significance.

What a Remedy!

Our society has lost its way. Politicians have not got the answers to the problems that have now overtaken us.

There is an answer however...that is, that we repent and turn back to the God of our forefathers. This will involve us admitting our sins to God, turning from them, and asking the Lord Jesus Christ to save us. As we turn to Him, our individual lives will take on their true significance, and our society will be radically changed...for the better.
